Learning Objectives

- Identify professional roles in the crime victim and disability service professions.
- Discuss the principles and values shared by crime victim service providers and disability service providers and advocates.
- Identify other organizations that work with crime victim service providers and disability service providers and advocates.

Who's Involved

- What are some professional roles that offer support for crime victims?
- What roles would support:
  - A child?
  - An immigrant?
  - Someone who doesn't speak English?
  - A person with a disability?
  - Someone with cultural and religious issues you aren't familiar with?

Missions and Values

- There are many different types of organizations within the disciplines of "victim services" and "disability services."
- Each discipline has its own mission and values.
- Each organization within those disciplines has its own mission and values as well.
- However, there are many values in common.
