## What's new in 2016?

- **Available online** for the first time, so the Guide can be updated continually with new resources.
- **Mobile optimized** for easy access via tablet or smartphone.
- **Fully updated** with new research and innovative practices.
- **All the latest information** you need to create a new SANE program or enhance an existing one.
- **Reorganized around 5 key principles:** trauma-informed, patient-centered care, multidisciplinary approach, community uniqueness, and evidence-based practice.

Check out the new Guide at [www.ovcttac.gov/saneguide](http://www.ovcttac.gov/saneguide) to see how it can help improve your SANE program and ensure that all sexual assault victims receive the highest standard of patient-centered care.
