Representative Payee Program

Early on in Social Security's history, Congress recognized that some beneficiaries were incapable of managing their benefits, and amended the Social Security Act to allow us to appoint representative payees for such beneficiaries.

Power of Attorney

- For Social Security, having power of attorney or a joint bank account with the beneficiary is NOT the same thing as being a representative payee.
- Being a Social Security representative payee does not entitle an individual to manage any funds that aren't Social Security or SSI payments.

Interdisciplinary Training

Objective: To provide key information and resources to those who serve and support vulnerable adults and seniors. Although we initially developed this training to ensure that our representative payees have key information that will assist them with serving our customers, we soon recognized that this training would be beneficial to all who support the needs of our most vulnerable people.

June 13, 2018

Overview

- The Elder Justice Innovation Grants are designed to develop and advance the knowledge and approaches of emerging issues related to elder justice
- Grants are for 2 years – ACL awarded \$2.2 million in 2016 and \$3.3 million in 2017 in competitive grants under this program
- One area of focus for the 2016 grants was self-neglect. The Older Americans Act defines self-neglect as:
 - “[An] adult’s inability, due to physical or mental impairment or diminished capacity, to perform essential self-care tasks including –
 - (A) obtaining essential food, clothing, shelter, and medical care;
 - (B) obtaining goods and services necessary to maintain physical health, mental health, or general safety; or
 - (C) managing one’s own financial affairs.

Goals of the Innovation - Self-Neglect Grants

- Improve understanding of the population of people who self-neglect.
- Expand knowledge about the responses by APS and other providers to self-neglect.

Awardees

- **National Adult Protective Services Association (NAPSA)** - To contribute to the developing self-neglect evidence knowledge base and inform research, policy, and practice
- **Rutgers University** - Goal is to improve the prediction process regarding elderly SN by leveraging and expanding existing research and creating a robust predictive index.
- **Benjamin Rose Institute** - Will increase the knowledge of risk factors and interventions for self-neglect among older adults and persons with disabilities to prevent it from occurring or re-occurring.

NAPSA

1. Conduct systematic SN literature review
 - NAPSA conducted a systematic review of SN research literature published over the past 20 years within the US has been conducted
 - Research articles meeting inclusion criteria have been analyzed
 - The review reveals the current state of SN research including key findings, gaps & overlooked areas
2. Conduct national survey research re: APS response to SN
 - NAPSA created the SNAPS (Self-Neglect APS) questionnaire and administered in FY '16 state-by-state APS SN policies, practices, and tools
3. Explore innovative APS SN practices and collaborations
 - Results will provide a snapshot of innovative APS practices and illuminate practice and research implications & needs.

Rutgers University

Specific Aims:

- To develop a predictive index
- To examine the racial/ethnic differences of the index among white, African-American, and Chinese cohorts
- To explore the social and cultural context of SN from older adults and family member regarding the barriers, challenges, and potential of prevention and intervention in diverse populations.

Final Products:

- Predictive index
- Qualitative and quantitative data of SN seniors and family/caregiver

Benjamin Rose Institute on Aging

Research Method:

- 2 Regions of Texas
 - San Antonio – HQ of WellMed; largest market
 - Corpus Christi – another large market
- WellMed Primary Care Clinics: matched in each region
- Clinics randomly assigned to intervention & comparison groups

Sample of community dwelling patients in both groups:

- Selected based on risk factors for SN: cognitive impairment; depression; and limitations in ADLs etc.

Innovation Grants to Address Abuse in Guardianship

Three funded projects:

- Stark County (OH) Probate Court
- Volunteers of America, MN
- American Bar Association, Commission on Law and Aging

Themes of Grantee Work

- Reduce reliance on plenary guardianships through increased use of supported decision-making
- Use of mediation in high conflict guardianship cases
- Prevent abuse in context of guardianship through monitoring: use of Court Angels, complaint hotline
- Create networks of diverse stakeholders to improve court performance

Stark County Probate Court (Canton, OH)

- Eldercaring Coordination Program (conflict mediation for guardianship). The program provides conflict mediation assistance to elders and families
- Expand Court's Guardianship Visitor Program
- Partnerships with other court systems, Adult Protective Services
- External evaluation

American Bar Association

- The collaborative effort will improve the ability of state and local guardianship systems to develop protections less restrictive than guardianship and advance guardianship reforms.
- Expand and enhance state Working Interdisciplinary Networks of Guardianship Stakeholders (WINGS)
- Sub-grants to 7 state WINGS
- Action tools on issues related to elder abuse, guardianship, and related legal issues
- Partnership with National Center for State Courts (NCSC), and other non-grantee WINGS projects around the country

Volunteers of America, MN

Established a Center for Excellence in Supported Decision Making to provide:

- training and services for social workers, attorneys, others

WHAT IS ELDER ABUSE?

Elder abuse is the mistreatment or harming of an older person. It can include physical, emotional, or sexual abuse, along with neglect and financial exploitation. Many social factors—for example, a lack of support services and community resources—can make conditions ripe for elder abuse. Ageism (biases against or stereotypes about older people that keep them from being fully a part of their community) also play a role in enabling elder abuse. By changing these contributing factors, we can prevent elder abuse and make sure everyone has the opportunity to thrive as we age.
