The Purpose of This Training Series

Helping Victims of Mass Violence & Terrorism Two-Part Webinar Series

Helping

Victims of Mass Violence & Terrorism

PLANNING, RESPONSE, RECOVERY, AND RESOURCES

This September and October, the Office for Victims of Crime Training and Technical Assistance Center (OVC TTAC) will launch an important two-part webinar series that will highlight significant actions needed to help your community prepare and respond appropriately to assist victims in the first few days after a mass violence tragedy occurs.

The first webinar, "Helping Victims of Mass Violence & Terrorism: The First 24 to 48 Hours," will discuss steps to execute a response plan, including what to expect during response committee meetings, communication strategies, factors to consider when setting up a Family Assistance Center, challenges with victim identification and death notifications, and key elements of volunteer and donation management.

The second webinar, "Helping Victims of Mass Violence & Terrorism: 48 Hours and Beyond," will build upon the details that were discussed in the first webinar. We will discuss the transition from short-term to long-term assistance, how to execute productive outreach plans, understanding immediate/acute, intermediate/transitional, and long-term needs of survivors, how to honor victims and survivors, and how to get involved in exercise planning.

To participate in this important training, please plan to join either the September or October webinar series by registering below:

Goals of This Webinar

After completing this webinar, you should be able to—

- Discuss the transition from short-term to long-term victim assistance.
- Identify strategies for how to implement a productive outreach plan.
- Examine the acute/immediate, intermediate/transitional, and long-term needs of survivors.
- Explain how to honor victims and survivors.
- Discuss strategies for how to get involved with exercise planning.

Organizational Success

Creating and Using a Memorandum of Agreement

A memorandum of agreement (MOA) is a written document describing a cooperative relationship between two parties wishing to work together on a project or to meet an agreed upon objective. An MOA serves as a legal document and describes the terms and details of the partnership agreement. An MOA is more formal than a verbal agreement, but less formal than a contract. Organizations can use an MOA to establish and outline collaborative agreements, including service partnerships or agreements to provide technical assistance and training. An MOA may be used regardless of whether or not money is to be exchanged as part of the agreement.

The components of an MOA include:

- I. Purpose of the Agreement

This section states the big picture of why and how the parties came together and includes:

 - a) Name of parties involved
 - b) Brief description of the scope of work
 - c) Financial obligations of each party, if applicable
 - d) Dates agreement is in effect
 - e) Key contacts for each party involved
- II. Detailed Description of Roles and Responsibilities

This section identifies the mutual and joint responsibilities (collaborative tasks) and the expected result of those joint efforts. In addition, it lists the specific roles and responsibilities of each entity and clarifies the purpose of the MOA.
- III. Payment Schedule if Applicable

This section should detail the amount of funding, if any, that one party will pay the other

Prepare MOU/MOAs to include—

- Dates.
- Scope of response activities.
- Appropriate signatures for partnering agencies/organizations.
